

THE ATARA ADVANTAGE

Modern healthcare organizations and government agencies face fragmented supply chains and rising compliance risks. Atara Health LLC solves these challenges by providing integrated medical equipment, clinical supply and pharmacy aligned solutions designed to support both patient care and health care operations.

We ensure clinical continuity for organizations and facilities by making regulatory excellence, logistics automation, and cybersecurity our top priorities. We provide a scalable, secure infrastructure for institutional health fulfillment.

Our expanding pharmacy capability further strengthens our ability to deliver end-to-end healthcare support across DME, clinical supply and prescription services.

CORE COMPETENCIES

Institutional Durable Medical Equipment (DME):
(Procurement and fulfillment of mobility, respiratory, and therapeutic equipment for healthcare facilities.)

PPE & Safety Supplies:
Sourcing and distribution of certified personal protective equipment and safety products.

Medical-Surgical Consumables:
Supply of clinical essentials including wound care, diagnostic, and disposable medical items.

Logistics & Technical Support
Equipment delivery, setup coordination, and rapid-response fulfillment support.

Scalable Contract Support
Operational capacity to support multi-site facilities and government purchasing requirements.

Pharmacy Services (Expanding 2026)
Prescription fulfillment and medication coordination to support integrated patient care and clinical operations
